

# INDIANA UNIVERSITY SCHOOL OF MEDICINE

## Fact Sheet for 2014–15

- The IU School of Medicine has nine medical campuses across Indiana: Indianapolis, Bloomington, Evansville, Fort Wayne, Gary, Lafayette, Muncie, South Bend and Terre Haute.
- The IU School of Medicine has over 1,300 M.D. students and nearly 250 Ph.D. students.
- The IU School of Medicine received more than \$260 million in research awards in FY 2014, including over \$100 million in NIH funding.
- The IU School of Medicine has nearly 825,000 square feet of dedicated research space.
- The IU School of Medicine has the only NCI-designated cancer center in Indiana that provides patient care.
- The cure for testicular cancer was discovered at the IU School of Medicine in 1974.
- IU faculty have performed many “firsts” in Indiana including transplants of the kidney, liver, cornea, bone marrow, pancreas, and infant and newborn hearts.
- More than half of all physicians in Indiana trained as students and/or residents at the IU School of Medicine.
- Nearly 40 percent of IU School of Medicine graduates enter primary care specialties.

### 2014 ENTERING CLASS

#### M.D. Students

Number of applicants.....	5,485
Number of students enrolled.....	352
Male.....	191
Female.....	161
Minorities.....	68
In-state.....	263
Out-of-state.....	89
Average GPA of class.....	3.74
Average MCAT score.....	31/0

#### Graduate Students

Number of students enrolled	
Ph.D. students.....	32
M.D./Ph.D. students.....	8
Master of Science in Medical Science (MSMS).....	28
Master's students.....	55
Certificate Students.....	8

### TOTAL STUDENT BODY

M.D. Program.....	1,379
Ph.D. Program.....	191
M.D./Ph.D. Program.....	49
Master of Science in Medical Science (MSMS).....	28
Master's Program.....	126
Health Professions.....	264
Certificate Program.....	9

#### Subsets of total student body

Male.....	971
Female.....	1,075
Minorities.....	452
In-state.....	1,531
Out-of-state.....	515
M.D. students at Indianapolis	
Campus.....	823
M.D. students at	
Northwest.....	77
South Bend.....	70
Fort Wayne.....	81
Evansville.....	57
Terre Haute.....	69
Bloomington.....	85
Lafayette.....	66
Muncie.....	51

Living Alumni ..... 19,480

### M.D. ANNUAL TUITION

In-State.....	\$33,349
Out-of-State.....	\$53,703

### RESIDENTS AND FELLOWS

Number of accredited residency and fellowship programs.....	84
residents and fellows.....	1,154

### FACULTY AND STAFF

Full-time faculty.....	2,017
Part-time faculty.....	203
Volunteer faculty.....	3,194
Staff.....	1,716

### RESEARCH

Grants awarded for fiscal year	
2013–14.....	\$260,736,170
Research studies awarded for fiscal year	
2013–14.....	1,510
Research centers and institutes.....	29

- 1956** Institute for Psychiatric Research is dedicated.
- 1958** Medical Science Building opens, later re-named after John VanNuys, M.D., dean, 1947–1964.
- IU School of Medicine moves to Indianapolis.
- 1959** IU School of Medicine establishes the Division of Allied Health Sciences.
- Medical Sciences Program established in Bloomington.
- 1963** Krannert Institute of Cardiology is dedicated.
- 1967** Regenstrief Institute for Health Care is established.
- 1970** Indiana University Hospital opens.
- 1971** Statewide Medical Education Centers established.
- 1974** IU Distinguished Professor Lawrence Einhorn, M.D., pioneers cure for testicular cancer.
- 1977** National Institutes of Health funds Diabetes Research and Training Center.
- 1983** IU School of Medicine awarded fiscal and medical control of Wishard Memorial Hospital.
- IU School of Medicine opens Elks Cancer Research Center.
- 1987** National Institutes of Health funds Alcohol Research Center at IU School of Medicine.
- Walther Oncology Center established.
- 1989** Medical Research and Ruth Lilly Library Building is dedicated.
- 1990** Herman B Wells Center for Pediatric Research is dedicated.
- Bowen Research Center established.
- National Institutes of Health funds Midwest Sexually Transmitted Disease Collaborative Research Center.
- 1991** National Institutes of Health funds Indiana University Alzheimer Disease Center.
- 1995** National Institutes of Health establishes a National Gene Vector Laboratory at IU School of Medicine.
- 1996** Indiana Cancer Pavilion is dedicated.
- 1997** IU Hospital and Riley Hospital for Children consolidate with Methodist Hospital of Indiana to form Clarian Health.
- Indiana University Center for Aging Research opens.
- Department of Health and Human Services funds National Center of Excellence in Women's Health at IU.
- Indiana University Cancer Research Institute is dedicated.
- 1999** IU Cancer Center receives National Cancer Institute designation.
- 2000** Riley Hospital for Children opens Riley Outpatient Center.
- Indiana Genomics Initiative (INGEN™) formed with \$105 million grant from Lilly Endowment.
- 2001** IU Center for Bioethics established on IUPUI campus.
- 2003** Biotechnology Research and Training Center and Research II buildings open.
- 2005** IUSM-South Bend opens new center with University of Notre Dame, dedicate Raclin-Carmichael Hall.
- 2006** The Fairbanks Institute is established by BioCrossroads with IU School of Medicine and Regenstrief Institute.
- 2007** Health Information and Translational Sciences building dedicated; this extends the IUSM campus to the Indianapolis Central Canal.
- The first class of Ph.D. students enter the Indiana BioMedical Gateway Program.
- 2008** The Indiana University Melvin and Bren Simon Cancer Center opens a new patient care facility.
- 2009** Joseph E. Walther Hall building is dedicated.
- IUSM-Fort Wayne opens the Medical Education and Research Building.
- 2010** Lilly Endowment Inc. boosts research at IUSM with \$60 million grant for the Indiana Physician Scientist Initiative.
- 2011** IUSM-South Bend and University of Notre Dame dedicate Harper Hall.
- Eugene and Marilyn Glick Eye Institute is dedicated.
- 2012** The IU School of Medicine and Indiana University Health each invest \$75 million in the new Strategic Research Initiative to recruit new scientists in neurosciences, cancer and cardiovascular disease, and to speed discoveries into new therapies.
- The Department of Public Health, established by the school in 1998, becomes the Indiana University Richard M. Fairbanks School of Public Health.
- 2013** IU School of Medicine breaks ground for the Indiana University Neurosciences Research Building—138,000 square feet designed to bring neuroscientists together to advance multidisciplinary research.
- 2014** The IU School of Medicine and the Rehabilitation Hospital of Indiana open one of the world's most advanced laboratories designed to improve the understanding and treatment of moderate to severe brain injuries.
